

CASE STUDY

A WORK OF ART FOR WARWICK FARM RACECOURSE PERIMETER WALL

As part of a \$25M upgrade project, Warwick Farm Racecourse required a perimeter wall with an aesthetic elegance that honoured the heritage, history and tradition of the area. Additionally, the solution needed acoustic properties to shield the horses from the traffic noise caused by Governor Macquarie Drive.

The aesthetically grand yet versatile EstateWall provided the perfect canvas for this acoustically rated boundary wall. From concept designs, to sample panels, to final installation, ModularWalls worked closely with the main client, William Inglis & Son Ltd, to refine and perfect the final solution.

Custom post caps and framed panels worked in harmony to create a visually striking yet graceful wall design. CNC cut signage and equestrian silhouettes were meticulously applied by hand along the wall, embracing the excitement and vitality of the events within.

The final solution perfectly harmonised with the existing side boundary, showcasing classical features of cast iron fencing and large pillars.

Industry leader in innovative and cost effective acoustic and boundary walls

- **Proven acoustic performance**
- **Cost effective**
- **Durable, lightweight modular construction**
- **Quick and easy installation**
- **Suited to environmentally harsh and remote locations**
